Bauhaus design in idyllic island settings

Germany island is a refined extreme water front villa resort inspired by a striking fusion between chic Bauhaus design and unspoiled Maldives islands settings.

The island is home to 32 villas, each comprising 2 floors with terraces and walls of windows, immersed in lush exotic gardens with bent palm trees and offering a rare waterfront experience with a choice of beachfront villas or lagoon villas.

The villas combine superior craftsmanship and smart technology in addition to the Kleindienst signature sustainability features such as solar panels, water conservation and irrigation and a zero discharge policy.

THE HEART OF EUROPE KEY PRINCIPLES

Attention to details

- European themed interior design.
- Bathrooms with waterproofing layers to prevent water stagnation.
- Thermally insulated roof and façade walls.
- Tiles and floor materials thoroughly checked to prevent color variation.
- Immersive landscape areas with relaxation/recreational features.

Craftsmanship

- Bathrooms horizontal surfaces with high resilience ensuring no chipping.
- Swimming pools decks with non-slippery materials.
- Carpentry works with timber & oak finish.
- Tempered glass used for balustrade and partition.
- 100 years life time.

Innovative design & Feng Shui

- Windows with double glazing to ensure acoustic and heat insulation.
- Electronic dimmer controls in living, dining and bedrooms.
- Solar powered water heating system.
- Landscaping & jungles inspired by Europe and the Maldives.
- Projects constructed and landscaped using Feng Shui practices.

Sustainability

- Pesticides and fungicides free gardens with 60+ plants species.
- Solar powered homes & swimming pools & Raining Street (CO2 free).
- Coral Institute rehabilitates coral reefs and marine life from the Arabian Gulf.
- Car free environment & sustainable ferry.
- Zero discharge project.
